

Safety Data Sheet

Issue Date 19-Jul-2021

Revision Date 19-Jul-2021

Version 1

1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier

Product Name BTRTX15 Glass Cleaner

Other means of identification

SDS# BTRTX15

Recommended use of the chemical and restrictions on use

Recommended use Dilutable Glass Cleaner

Uses Advised Against For industrial or institutional use only.

Details of the supplier of the safety data sheet

Company Name

Bradley Systems
a division of TRION Chemicals
320 37th Avenue
St. Charles, IL 60174
www.bradley-systems.com

Emergency telephone number

Company Phone Number 800-252-1114 (to reorder)
Emergency Telephone INFOTRAC 1-800-535-5053
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Classification-Not Classified

OSHA/HCS Status

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product

Signal Word

None

Hazard statement

No known significant effects or critical hazards.

Precautionary Statements -General-Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

Prevention

Not applicable.

Response

Not applicable.

Storage

Not applicable.

Disposal

Not applicable.

Hazards not otherwise classified

None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS**Composition**

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. FIRST AID MEASURES**First aid measures**

Skin Contact	Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.
Eye contact	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Ingestion	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

Inhalation	None known significant effects or critical hazards.
Ingestion	None known significant effects or critical hazards.
Skin Contact	None known significant effects or critical hazards.
Eye Contact	None known significant effects or critical hazards.
Symptoms	None known significant effects or critical hazards.

Indication of any immediate medical attention and special treatment needed

Note to physicians	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. No specific treatment.
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training.

5. FIRE-FIGHTING MEASURES**Suitable extinguishing media**

Use fire-extinguishing media suitable for the surrounding fire.

Unsuitable extinguishing media None known

Hazards arising from the chemical

No specific fire or explosion hazard.

Hazardous thermal decomposition products

No specific information available.

Protective equipment and precautions for firefighters

Fire fighters should wear full protective equipment and NIOSH/MSHA approved self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

6. ACCIDENTAL RELEASE MEASURES**Personal precautions, protective equipment and emergency procedures****Personal precautions**

No action shall be taken involving any personal risk or without suitable training. Keep personnel unnecessary and unprotected personnel from entering. Do not touch or walk-through spilled material. Put on appropriate personal protective equipment.

Emergency responders

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions**Environmental precautions**

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up**Methods for cleaning up and containment**

Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

7. HANDLING AND STORAGE**Precautions for safe handling****Advice on safe handling**

Put on appropriate personal protective equipment (see Section 8).

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

Storage Conditions

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters – United States**Occupational exposure limits**

Occupational exposure limits – None.

Appropriate engineering controls**Engineering Controls**

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Individual protection measures, such as personal protective equipment**Eye/face protection**

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin and body protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties**Physical state**

Liquid

Color

Blue

Odor

No information available

Property**Values****Remarks • Method**

pH	7
Specific Gravity	No information available
Viscosity	No information available
Melting point/freezing point	Not applicable
Flash point	Not applicable
Boiling point / boiling range	No information available
Evaporation rate	No information available
Flammability (solid, gas)	No information available
Upper flammability limit:	No Information available
Lower flammability limit:	No Information available
Vapor pressure	No information available
Vapor density	No information available
Relative density	1.022
Water solubility	No information available
Autoignition temperature	>98.9°C (>210°F)
Decomposition	No information available

10. STABILITY AND REACTIVITY

Reactivity

There are no known reactivity hazards associated with this product.

Chemical stability

Stable under normal conditions.

Possibility of Hazardous Reactions

None known under normal conditions of storage and use, hazardous reaction will not occur.

Conditions to avoid

There are no known conditions that are likely to result in a hazardous situation.

Incompatible materials

No information available.

Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity	None known.
Irritation/corrosion	None known.
Sensitization	None known.
Mutagenicity	None known.
Carcinogenicity	None known.
Reproductive toxicity	None known.
Teratogenicity	None known.

Information on the likely routes of exposure: Dermal contact. Eye contact. Inhalation. Ingestion.

Potential acute health effects

With eye contact, inhalation, skin contact and ingestion there are no known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

With eye contact, inhalation, skin contact and ingestion there are no known significant effects or critical hazards.

Delayed and immediate effects and also chronic effects from short- and long-term exposure

Short term exposure

Potential immediate

effects

No known significant effects or critical hazards.

Potential delayed effects

No known significant effects or critical hazards.

Long term exposure

Potential immediate

effects

No known significant effects or critical hazards.

Potential delayed effects

No known significant effects or critical hazards.

Potential chronic health effects

General

No known significant effects or critical hazards.

Carcinogenicity

No known significant effects or critical hazards.

Mutagenicity

No known significant effects or critical hazards.

Teratogenicity

No known significant effects or critical hazards.

Developmental effects

No known significant effects or critical hazards.

Fertility effects

No known significant effects or critical hazards.

12. ECOLOGICAL INFORMATION

Persistence and degradability

No Information available.

Bioaccumulation

No information available.

Mobility

No information is available.

Other adverse effects

No known significant effects or critical hazards.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Disposal of wastes

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

14. TRANSPORT INFORMATION

DOT

Not regulated.

IATA Not regulated.

IMDG Not regulated.
Environmental hazards No

Special precautions for user: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

15. REGULATORY INFORMATION

U.S. Federal regulations: **TSCA 8(a) CDR Exempt/Partial exemption:** Not determined. **United States inventory (TSCA 8b):** All components are listed or exempted.

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) – Not listed.

Clean Air Act Section 602 Class I Substances – Not listed.

Clean Air Act Section 602 Class II Substances - Not listed.

DEA List I Chemicals (Precursor Chemicals) – Not listed.

DEA List II Chemicals (Essential Chemicals) - Not listed.

SARA 302/304

Composition/information on ingredients – No products were found.

SARA 304RQ – Not applicable

SARA 311/312 – Classification not applicable

SARA 313 – No information available.

State regulations:

Massachusetts/New York/New Jersey/Pennsylvania: None of the components are listed.

California Prop. 65 – No products were found.
