

Trion Chemicals Enhances Bradley Systems' RTX9 & Yellow Magic Product Lines

November 2022 (St. Charles, IL): Trion Chemicals this month announced the enhancement of Bradley Systems' flagship product lines RTX9 & Yellow Magic. The RTX9 Series offers vehicle and equipment fleet operations industrial strength cleaning without the need for personal protection equipment. The Yellow Magic Series provides flexographic printers with an earth and people friendly cleaners that works on both aqueous and UV inks & coatings.

"We are excited about the new enhanced formulas. They not only allow us to stay in compliance with evolving governmental regulations but keep us true to Bradley Systems' mission" says Mike Zibrun, Executive Director of Business Development, Trion Chemicals. "We are proud of being able to provide the most effective cleaning solutions that are safer for the user and better for the environment,"

Features and benefits of the RTX9 & Yellow Magic Series enhancement include:

- 0% Volatile Organic Compounds (VOCs)
- Friendly on All Surfaces (neutral pH)
- No Personal Protection Equipment (PPE) Required

Improvements to the RTX9 & Yellow Magic Series will be implemented during November 2022. Customers should not expect any changes to pricing. For more information on the RTX9 & Yellow Magic product lines, visit www.bradley-systems.com.
