TURBO Yellow Magic®

TURBO YELLOW MAGIC® SPECS & APPLICATIONS

Applications:

- Flexo UV and water-based inks.
- Coatings & Varnishes from surfaces such as rubber, plastic, stainless steel alloys, photopolymer plates, Anilox rollers, cement floors, rugs and other cloth materials.
- Simple and quick-to-use, minimizing costly make-ready time in between jobs.
- Can also be used for other cleaning purposes such as painted or varnished surfaces, and Anilox rollers on coating units (aqueous). Pre-testing is recommended prior to using on these applications.
- TURBO Yellow Magic® is terrific when used in an Ultrasonic cleaning machine or in a parts washer. TURBO Yellow Magic® can be used heated or not. It can even clean cement floors.

Usage Directions:

- May be used as a spray and wipe.
- TURBO Yellow Magic® is to be used at 100% ready-to-use strength.
- After usage, always rinse with potable water.
- Parts Washer/Ultrasonic Cleaning – Immerse in TURBO Yellow Magic® for a 1-30 minute period. Remove parts from the cleaner. If necessary, gently scrub with a stiff plastic or brass brush as quickly as possible. Rinse the parts in clear water, let air dry, or dry with a cloth or paper towel.
- Machine Cleaning – May be used in Heated, Anilox or Photopolymer Plate cleaning machines. Use undiluted product for normal cycle time, then rinse the parts in potable water.

Available Configurations:

-  1-gallon (case of 4)
-  5-gallon container
-  55-gallon drum refill
-  275-gallon tote
