Bradley Wax Remover is formulated to provide the chemical action to penetrate, emulsify and remove all types of waxes and polymers.

RECOMMENDED USES:

- Paraffin and Microcrystalline Wax
- Vegetable and Animal Wax
- Metal Cross-Linked Finishes
- Synthetic Wax
- Alpha Olefin Wax

DIRECTIONS:

Dilution: Dilute 1:5 with water (use hot water for best results) for most applications. Where more aggressive removal is necessary, increase concentration incrementally until desired performance is achieved.

Application: Using a saturated mop or rag, distribute diluted product liberally and evenly. For small parts, submerge in a vessel containing diluted product. Allow to sit for 4-5 minutes. Make sure that the surfaces you are cleaning will not be damaged by any of the components of this product. If you are unsure, perform a small test in an inconspicuous area before using.

If agitation is needed, you may use scrubbing pads or brushes, while being careful not to damage the surface. If you have an automatic scrubber, you may also use that once the surface has been fully saturated.

Remove any remaining **Wax Remover** and rinse thoroughly with clean water. Once the surface is dry, inspect to make sure that all of the wax has been removed to your satisfaction. With larger buildups, several applications may be necessary to remove the layers.

Make sure to dispose of this product and waste generated from this product in accordance with all applicable local, state, and federal regulations.

An SDS for this product is available. Please read the SDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.

DANGER: Causes severe skin burns and eye damage. Suspected of causing cancer.

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Do not breathe dust/fume/gas/mist/vapors/spray. Wash face, hands and any exposed skin thoroughly after handling. Store locked up. Dispose of contents/container to an approved waste disposal plant.

FIRST AID MEASURES:

Immediately call a poison center or doctor/physician.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

IF ON SKIN: Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center or doctor/physician.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

CONTAINS (CAS#): Water (7732-18-5), Propylene Glycol Ethers (25498-49-1), Potassium Hydroxide (1310-58-3), Sodium Xylene Sulfonate (1300-72-7), 2-aminoethanol (141-43-5), Sodium Metasilicate Pentahydrate (6834-92-0), Amines, C10-C16-alkyldimethyl, N-oxides (70592-80-2), Sodium Tripolyphosphate Anhydrous (7758-29-4), Ethylenediaminetetraacetic Acid, Tetrasodium Salt (64-02-8), Benzenesulfonic Acid Sodium Salt (6881-81-2), Sodium Sulfate (7757-82-6), Hydrogen Peroxide (7722-84-1), Tetrasodium Pyrophosphate (7722-88-5), Sodium Trimetaphosphate (7785-84-4), Colorant.
