facilities.**
After usage,
always rinse with
Potable Water.

Yellow Magic[®] 7 Scrub Wipes for Presses and Workstations quickly remove tough-to-clean substances. You'll find these pre-moistened wipes essential to keep press-side and at workstations when working with Flexo UV and water-based inks. They provide the perfect solution for quick spot-cleaning and are always ready to help clean up messes around the press and workstations. There's no diluting, no mixing. Simply pull out a wipe and you're ready to clean.

The Yellow Magic[®] 7 formulation is A1 NSF registered, making it ideal for use in food packaging manufacturing for compliance and audits. When using in food packaging manufacturing always rinse surfaces with potable water after cleaning.
